

# 1. Introduction of survey-app

The app is an online survey software. Users need to scan the qr code generated by the web side to obtain the questionnaire published by the web side. After obtaining the questionnaire, the user will enter the questionnaire page to answer the questions. The user answers the question by clicking on the options box and editing the answer in the edit bar. After the answer, the system will jump to the finish page, and the user can choose whether to upload the questionnaire results to the server.

## 2. Demonstration of survey-app working

- The start page: Users need to read the terms and click accept to enter the user interface. Click the qrcode and then scan the qrcode on the webpage to get the contents of the questionnaire.

The screenshot shows the start page of the SvyU survey app. It features a teal header with the 'SvyU' logo. Below the header, the text 'WELCOME TO TAKE PART IN OUR SURVEY!' is displayed. A section titled 'Before we start, here are things you should know:' lists three instructions: '-Please be honest when making your choice.', '-We are just doing a reaserch so you don't have to fake your information.', and '-Please follow the step we designed for you and don't skip any questions.'. At the bottom, there is a checkbox followed by the text 'I accept these requests.'.

SvyU

WELCOME TO  
TAKE PART IN OUR SURVEY!

Before we start, here are things  
you should know:

- Please be honest when making your  
choice.
- We are just doing a reaserch so you  
don't have to fake your information.
- Please follow the step we designed  
for you and don't skip any questions.

☐ I accept these requests.

- The answer page: After entering the questionnaire, users answer by different types of questions. The user answers the multiple choice question by clicking on the options, and answers the fill-in-the-blank question by editing the text in the edit box.

The screenshot shows a mobile application interface for SvyU. At the top, there is a dark green header with the SvyU logo. Below the header, the question is displayed: "Question 1" followed by "Are you a college student?". There are two radio button options: "Yes" and "No". At the bottom of the screen, there is a dark green button labeled "NEXT". The status bar at the very top shows various icons and the time 21:02.

SvyU

Question 1

Are you a college student?

☐ Yes

☐ No

NEXT

- The finish page: After the user finishes answering the question, he can see his answer result in the end interface, and choose whether to upload the result. Click the upload button and the results will be uploaded to the server database. If the exit button is clicked, the user will need to enter a lock screen password to exit the program.

# Function list of survey-app
